Chefoo North China

Dear Sir:

I am sending you copies of portions of our Calendars that are important for yourself and your brother, the Curriculum of Matriculation, and Applied Science, and of Medicine. You will observe in these that complete Matriculation is necessary for entrance to the Faculty of Medicine, and Matriculation together with Pass standing in the work of Honour Matriculation in Mathematics for entrance to the Faculty of Applied Science.

If you will send the Registrar your certificates he will tell you what standing would be allowed you for work already done, and when the Supplemental Examinations will be held. Our Matriculation Examination takes place next June.

Yours very truly,

President
